The program was approved by the scientific and methodological commission of the Faculty of Law

Minutes of August 31, 2026, No. 1

Head of the Scientific and Methodological Commission
Faculty of Law — Hanna ZUBENKO

INTRODUCTION

Program academic discipline «Comparative contract law» folded in accordance to educational and professional program second equal preparation specialties 293 International law.

1. Description educational disciplines

1.1. Purpose educational disciplines «Comparative contract law» there are acquisition students theoretical and practical knowledge and ability comparative character in field regulation contractual relationships; understanding main foundations functioning institutes industries international rights.

1.2. The main objectives of studying the discipline are to identify and analyze legal problems, form and justify legal positions, and apply the acquired knowledge in practical situations.

1.3. Quantity loans – 150

1.4. General number of hours – 90 hours.

1.5. Characteristic educational disciplines	
By choice	
Day uniform teaching	Correspondence (remote) form teaching
Year preparation	
3nd	3nd
Semester	
7th	7th
Lectures	
48 hours	8 hours
Practical, seminar occupation	
32 hours	6 hours
Laboratory occupation	
Independent work, in ago number	
70 hours	136 hours
Individual task	
10 hours	10 hours

1.6. List of competencies formed by this discipline:

ZK 01. Ability for abstract thinking, analysis and synthesis.

ZK 02. Ability to learn and master modern knowledge.

ZK 05. Ability to search, process and analyze information from various sources.

SK07. Ability to provide legal opinions and consultations on issues of international public and international private law, European Union law, national law of Ukraine and the law of other states; predict and assess legal risks of foreign policy and foreign economic initiatives and ways to minimize them.

3 .	Termination obligations: comparative aspect	6 (2)
4.	Software implementation obligations: comparative aspect	6
5.	Legal consequences violation obligation: comparative aspect	6
6.	Trustworthy property: comparative aspect	6 (2)
	Together	**32 (6)**

5. Tasks for independent works

No	Types, content independent works	Number hours
1.	General characteristic contractual rights Task: to get acquainted with lecture material, to work outadditional literature	11 (22)

2.	Implementation obligations: comparative aspect Task: to get acquainted with lecture material, to process additional literature	11 (22)
3.	Termination obligations: comparative aspect Task: to get acquainted with lecture material, to work outadditional literature	11 (22)
4.	Software implementation obligations: comparative aspect Task: to get acquainted with lecture material, to work outadditional literature	11 (22)
5.	Legal consequences of violation obligation: comparative aspect Task: to familiarize yourself with the lecture material, to work through additional literature, prepare answers on main question topics	11 (22)
6.	Trustworthy property: comparative aspect Task: to get acquainted with lecture material, to work outadditional literature	15 (26)
	Together	**70 (136)**

6. Individual tasks

The student independently completes an individual assignment in writing in the format of an essay on the following topics:

1. Transformation of the Cause Institute in the Contract Law of EU Countries.
2. The Doctrine of Consideration and its equivalents in Ukrainian law.
3. The legal nature of pre-contractual obligations (using the example of German and French law).
4. The concept of single breach of contract in English law.
5. Remedies in contract law of Great Britain and the United States.
6. The concept of hardship in the UNIDROIT Principles.

Requirements for an individual assignment

1. The language of writing is Ukrainian, in a scientific style;

2. The total volume of the work is 15-20 sheets of A-4 format, the text is placed on one side of the page;

3. text requirements: editor – Word; font – Times New Roman, black, 14 p., 1.5 spacing; margins: top – 2 cm, bottom – 2 cm; left – 3 cm, right – 1.5 cm, book format, page numbering in the upper right corner;

4. mandatory references in the text of the assignment to the sources used: the number of the source in the list and the page number in it (if any) where the relevant information is stated are indicated in square brackets. The brackets are placed directly after the text to which the reference refers. For example: “the author believes that ... / the content of the thought is stated / [1, p. 2-3]”; the numbers “1” in this example are the numbers under which the specified works are placed in the list of sources used, “p. 2-3” are the page numbers;

5. references to scientific articles published in collections of scientific works, periodicals, etc. must include the author's surname and title of the work, title of the publication, year, issue number, and pages on which the work is located;

6. borrowing other people's ideas without citing the author is not allowed;

7. The provisions of the work must be formulated on the basis of current regulatory and legal sources.

The student selects regulatory material, scientific, educational and other special literature on the topic of the individual assignment independently. Outdated scientific and regulatory framework can be used in the work only as a comparative element.

The topic of the individual assignment is chosen by the student independently in accordance with the above list of topics.

7. Methods teaching

Applicable three groups methods teaching:

1. verbal - descriptive disclosure educational material, explanation entities the relevant phenomenon, concept, process, instruction on the specifics of the application of individual norms, level check independent processing educational material etc;
2. visual - demonstration schemes, tables, drawings (by availability);
3. practical - formation ability and skills operation legal categories, application of legal norms and use of acquired knowledge when conducting seminars classes.

8. Methods control

Current control is carried out at each seminar classroom session in the form of oral questioning, student speeches, writing and defending essays, test papers, etc. Current control is carried out in the form of an assessment of knowledge and skills acquired during the study of the topics of the corresponding section. Written work may include detailed answers to questions, answers to tests.

On end of the semester is being held test.

The maximum number of points that a student can score when taking the final test in an academic discipline is 40. The maximum number of points that a student can score when studying an academic discipline is 100.

List of questions for the exam

1. The concept of comparative contractual rights.
2. Concept contract.
3. Principle freedom contract.
4. Types contracts.
5. Public contract.
6. Typical contract.
7. Methods conclusion contracts.
8. Concept offers, acceptance.
9. Features acceptance in international law acts.
10. Form contract.
11. Concept and value significant conditions contract.
12. Interpretation contract.
13. Concept implementation obligations.
14. Principles implementation obligations.
15. Subjects' implementation obligations.
16. Subject implementation obligations.
17. Place and way implementation obligations.
18. Confirmation implementation obligations.
19. Concept termination obligations.
20. Reasons termination obligations.
21. Novation. Termination obligation enrollment. Forgiveness debt.
22. Termination obligation impossibility implementation.
23. Concept software implementation obligations.
24. Types software implementation obligations.
25. Penalty: concept, types and forms.
26. Pledge. Mortgage. Collateral. Suretyship agreement. Guarantee. Deposit.

27. Adherence.
28. Factoring as view software implementation obligation.
29. Legal consequences of breach of obligation.
30. Debtor's default and overdue payment creditor.
31. The concept and types of contractual liability.
32. Forms of contractual liability.
33. Compensation for damages.
34. Conditions responsibility.
35. Activities operational impact.
36. Trust property right as a way to ensure the fulfillment of a credit obligation by contract.
37. Emergence confidential property.
38. Use object confidential property.
39. Responsibilities user.
40. Required appeal penalty on object confidential property.
41. Procedure for foreclosure on a trust property.
42. Foreclosure on an object trust property at the request of third parties.
43. Termination of trust property.
44. Assignment of rights fiduciary owner.
45. Acquisition property in trust property in interests another person.

9. Scheme accrual points

The total number of points is 100.
The number of points for the test is 40.
Number of points during the semester – 60:
Number of points for answers in seminar classes ∑ 40 = 40:

Calculation formula

$$\sum \mathbf{40} = \frac{\sum \mathbf{1}}{\sum \mathbf{2}} \text{ X 8 (eight)}$$

Note:
∑40 – the sum of the maximum number of points
∑1 – the sum of points received by the student for answers in seminar classes.
∑ 2 – number of seminar classes during the semester.
8 – coefficient

Test paper – 10 points
Individual task – 10 points

Current control T1-T6	KR	IT	Together	Test	Sum
∑ 40	10	10	60	40	100

To be admitted to the exam, a higher education applicant must score at least 10 points in the academic discipline during current control, independent work, and individual assignment.

Criteria for evaluating academic achievements

When studying the academic discipline, the use of artificial intelligence (AI) technologies is carried out in accordance with the Policy on the Use of Artificial Intelligence Technologies of V. N. Karazin Kharkiv National University.

IN within disciplines are applied such models using AI:

1. Model «AI is forbidden»

The use of artificial intelligence technologies is not allowed during the implementation of control measures aimed at verifying the individual knowledge and development of the competencies of the education seeker, in particular: oral questioning, modular control works, exam (offset), if other not determined teacher, others species evaluation, for whom the teacher has set restrictions on the use of AI.

2. Model «AI as assistant».

When preparing for practical classes, completing individual assignments, essays, analytical reviews, and other written work, the use of AI is permitted for: search and systematization information, selection and primary analysis scientific sources, explaining complex concepts, improving text structure, checking grammar, style and layout, generating ideas, a work plan or examples.

The final text of the work, conclusions, analysis, interpretation of results, and decisions made must be prepared independently by the student.

3. Model «AI as tool».

For certain laboratory, practical, project or research works, the use of artificial intelligence technologies may be a mandatory component of the task. In such cases, students can use generative AI models to: analyze and prepare data, generate, analyze and optimize program code, compare the results of different AI models, create visualizations, schemes or images, analysis big arrays data. carrying out experiments using modern artificial intelligence tools.

All results, received by with help AI, are subject to critical analysis, verification and revision by the education seeker.

Declaring the use of AI.

In the case of using artificial intelligence technologies, the student is required to indicate: the name of the service or AI model; date of use; nature of assistance (idea generation, information search, data analysis, code generation, text editing, etc.).

At the teacher's request, the student must provide the prompts used or explain how to use AI tools.

Undeclared use of artificial intelligence technologies or submission of generated AI material as own result educational activities under consideration as a violation of the principles of academic integrity in accordance with the internal regulatory documents of the University.

Oral response evaluation criteria

Current control is carried out, in particular, in the form of surveys and verification of the results of performances at seminars and practical classes on a five-point grading scale.

5 points are awarded under the following conditions:

- the student works actively throughout the practical session;
- provides a complete, correct, consistent, coherent, and well-founded presentation of the issue, accompanied by correct examples from doctrinal sources and references to current legislation;
- everything that is taught must demonstrate a deep understanding and orientation in the phenomena and processes being studied;
- correct comprehensive answers to additional questions from the teacher.

4 points are awarded under the following conditions:

- the student works actively during the practical session;

- gives a correct, complete presentation of the content of the textbook and the material presented by the teacher, but answers additional control questions that the teacher asks to determine the depth of understanding and the ability to navigate phenomena and processes only with some help from the teacher or colleagues;

- insufficiently comprehensive answers to the teacher's additional questions.

3 points are awarded under the following conditions:

- the student behaves passively in class, responding only to the teacher's call;

- generally demonstrates knowledge of the main educational material being considered, but makes mistakes when answering and realizes them only after the teacher's instructions;

- does not give answers to questions immediately, but only after some straining of memory, and the answers are unclear;

- unable to derive correlations with other problems of the discipline being studied without the help of a teacher;

2 points are awarded under the following conditions:

- makes significant errors or completely skips material and partially corrects these errors only after instruction from the teacher;

- the student shows ignorance of a significant part of the educational material, presents it illogically and uncertainly, there are hitches and pauses in the answer, cannot explain the problem, although he understands it;

- does not present the material coherently and consistently enough.

1 point is awarded under the following conditions:

- the student makes gross mistakes when presenting the material and does not correct these mistakes even when the teacher points them out;

- reveals a lack of understanding of the educational material and, as a consequence, a complete lack of skills both in analyzing phenomena and in further performing practical tasks.

Individual assignment evaluation criteria

Number points received	Criteria for obtaining the appropriate number of points
0 points	the work is not accepted; the student has not met the specified requirements, the topic of the work has not been disclosed at all, international sources have not been used; the student is not familiar with the topic of the work and cannot answer any of the questions posed
1-6 points	the work does not fully meet the requirements; less than 10 sources were used in the work, international scientific sources were not used; the work does not contain references to the sources used, the topic of the work is disclosed one-sidedly, there is no logic in the presentation of the material; the structure of the work was not followed; the work contains significant grammatical and/or stylistic errors; the student did not answer the vast majority of the questions posed
7-9 points	the work was completed at the proper theoretical and practical level; the requirements for writing the work were met; the work was properly structured, but scientific sources were insufficiently analyzed and there was no creative approach to completing the tasks set; minor violations of the logic and/or systematic presentation of the material were allowed; minor inaccuracies were allowed in the design of the work; the student answered all the questions posed
10 points	the work was performed at a high scientific and practical level; the work demonstrated a high level of knowledge and creative understanding of the research results obtained; no errors were made in the design of the work; the student answered all the questions posed

Criteria for evaluating tests and exams

Tests and exams are completed in writing. The test consists of 10 test questions, and the exam consists of 40 test questions. Each test question has five answer options, only one of which is correct; one point is awarded for each correct answer.

Rating scale

The sum of points for all types of training activities during the semester	National scale assessment
90-100	enrolled
70-89	enrolled
50-69	enrolled
1-49	not enrolled
