WORK PROGRAM OF THE ACADEMIC DISCIPLINE

EUROPEAN UNION CONTRACT LAW

level of higher education	- second (master's)
field of knowledge	- D Business, Administration and Law
specialty	- D 9 International Law
Educational program	- International Law
type of discipline	- mandatory
Faculty	- Law

2026 / 2027 academic year

The program has been recommended for approval by the Academic Council of the Faculty of Law

August 31, 2026, Protocol No. 1

PROGRAM DEVELOPER:

Zavalna Zh.V., Doctor of Law, Professor, Professor of the Department of Civil Law Disciplines,
Faculty of Law, V.N. Karazin Kharkiv National University.

The program was approved at a meeting of the Department of Civil Law Disciplines of the Faculty
of Law

Protocol No. 1 of August 28, 2026

Head of the Department
civil law disciplines

Olena USTYMENKO

The program has been approved by the guarantor of the educational and professional program of the
second (master's) level of higher education in the specialty «International Law»

Guarantor of the educational and professional program
second (master's) level of higher education
«International Law»

Oleksandr HAVRYLENKO

The program was approved by the scientific and methodological commission of the Faculty of Law

Minutes of August 31, 2026, No. 1

Head of the Scientific and Methodological Commission
Faculty of Law

Hanna ZUBENKO

INTRODUCTION

The curriculum of the academic discipline «EU contract law» is compiled in accordance with the educational and professional program for the Master of Laws, specialty D9 International Law.

1. Description of the academic discipline

1.1. The purpose of teaching the academic discipline is to train specialists who have a high level of legal awareness and legal culture, possess the knowledge and practical skills necessary in their professional activities to solve specific tasks in the field of EU contract law, are able to independently navigate modern contractual legal relations, and make balanced and well-founded decisions within the framework of their professional competence.

1.2. The main objectives of studying the discipline are to identify and analyze legal problems, form and justify legal positions, and apply the acquired knowledge in practical situations.

1.3. Number of credits – 4

1.4. Total number of hours – 120

1.5. Characteristics of the academic discipline	
Required	
Full-time study	Correspondence form of study
Year of preparation	
1st	1st
Semester	
1st	1st
Lectures	
4 hours	4 hours
Practical, seminar classes	
4 hours	4 hours
Laboratory classes	
Independent work	
88 hours	112 hours
Individual tasks	
10 hours	10 hours

1.6. List of competencies formed by this discipline:

GC 1. Ability to think critically, analyze, and synthesize.

GC 5. Ability to develop and manage projects.

GC 10. Ability to use information and communication technologies.

SK 4. Ability to effectively ensure the adaptation of Ukrainian legislation to EU law in law-making, law-interpretation and law-enforcement contexts, to provide legal support to European integration and Euro-Atlantic processes in various spheres of public relations.

SK 5. Ability to prepare draft national and international legal acts, provide proposals for the implementation of international standards into national legislation, and bring domestic legislation into line with international law.

SK 7. Ability to solve problems of international law, adaptation of Ukrainian legislation to EU law in new or unfamiliar environments in the presence of incomplete or limited information, taking into account aspects of social and ethical responsibility.

SK 9. Ability to develop and implement innovations in various fields and institutions of

international law, EU law using international legal instruments.

1.7. List of learning outcomes that this discipline forms:

RN 1. Identify, analyze and propose ways to solve multifaceted problems of international and national legal content.

RN 3. Communicate fluently in the state and foreign languages orally and in writing to discuss issues of professional activity, research results and innovations, search and analysis of relevant information.

RN 5. To provide legal representation of the client in international judicial bodies, national courts, international commercial arbitrations, other international organizations, state authorities and local governments.

RN 8. Prepare draft international treaties and acts of national legislation, provide proposals for eliminating conflicts between the norms of international law, as well as bringing the norms of national law into line with the norms of international law.

RN 10. Provide legal support to the processes of adapting various branches of Ukrainian legislation to European Union law.

RN 11. Organize and conduct negotiations, ensure effective communication with specialists at the national and international levels.

RN 13. Develop and implement innovative and research projects in the field of international law, taking into account legal, social, economic and ethical aspects.

RN 15. Participate in the development and implementation of scientific projects, including international ones, assess the necessary resources and possible risks.

RN 16. Assess the authenticity of information and the reliability of sources, analyze it and use it for scientific research and professional activities in the field of international law.

1.8. Prerequisites: Theory of law and state. Civil law.

2. Thematic plan of the academic discipline

Topic 1. General characteristics of EU contract law

The concept of EU contract law. Scientific concepts and perception of EU contract law. Functions of EU contract law. Principles of the EU *acquis Communautaire* as the basis for the formation of European contract law. Sources of European contract law.

Topic 2. Principles of European Contract Law

The concept and characteristics of the basic principles of EU contract law. Classification of principles of European contract law. Individual principles of European contract law: the principle of freedom of contract: concept, essence and limitations and in accordance with EU law; the principle of security in EU contract law; the principle of fairness of the contract. Implementation of the principles of EU treaty law into the legislation of Ukraine: problems of scientific and practical implementation.

Topic 3. Statics of contractual obligations in EU regulations

Concepts and problems of defining contractual obligations in EU regulations and scientific concepts. Contractual obligations in the system of *acquis* obligations. Classification of contractual obligations in EU legal acts. Legal personality of participants in contractual obligations in EU legal acts. Object and subject matter of contractual obligations in EU legal acts.

Topic 4. Dynamics of contractual obligations in EU legal acts

Basic requirements for concluding contractual obligations in the *acquis*. Basic requirements for the procedure for fulfilling a contractual obligation under EU regulations. Methods for ensuring the fulfillment of obligations under EU regulations. Scientific and practical problems of implementing

the norms of European contract law into the legislation of Ukraine regarding the conclusion, execution and ensuring the fulfillment of contractual obligations.

Topic 5. Consequences and liability for breach of contractual obligations and protection of the rights of the parties in European contract law

Consequences and liability for breach of contractual obligations under EU law. Peculiarities of liability for breach of contract in European contract law. Methods and forms of protecting the rights of the parties to the contract in accordance with the UNIDROIT Principles. Methods of protecting the rights of the parties to a contract in accordance with the Principles of European Contract Law. Grounds for exemption from liability for breach of contractual obligations in the EU.

Topic 6. Contract as the main regulator of private legal relations in EU regulations

The concept, meaning and classification of contracts in the private law of EU countries. Validity of a contract in the EU. Invalidity of a contract. Legal consequences of invalidity of a contract under European contract law. Form of contract in EU law. General requirements for the content of a contract in European contract law. Interpretation of a contract.

Topic 7. Contractual relations of purchase and sale under European contract law

Legal regulation of the sales contract in the EU. Obligations of the parties under a purchase and sale agreement. Amendment and termination of the purchase and sale contract in accordance with EU law. Consequences of amendment and termination of the purchase and sale contract. Grounds for refusal of the purchase and sale agreement. Complications of the agreement. Methods of protecting the rights of a party to a sales contract in accordance with the United Nations Convention on Contracts for the International Sale of Goods of April 11, 1980.

Topic 8. Legal regulation of contractual relations in the field of service provision under EU legislation

General requirements in EU legislation for the procedure for the performance of service contracts. European contract law in various areas of service provision: features of regulation of contracts for the provision of financial services; features of regulation of contracts for the provision of insurance services; Features of the regulation of contracts for the provision of transportation services; Features of the regulation of contracts for the provision of agency services. Problems of implementing the norms of European contract law in the field of service provision.

7.	Contractual relations of purchase and sale under European contract law (study of additional literature on the topic).	11 (14)
8.	Legal regulation of contractual relations in the field of service provision under	11 (14)

	EU law (study of additional literature on the topic).	
Together		88 (112)

6. Individual tasks

Within the framework of studying the academic discipline, an individual task has been introduced. An individual task involves the student completing written essays, the topic of which he chooses independently from the list below.

List of topics for individual assignments:

1. Normative and social scientific approaches to understanding contract law.
2. Characteristics and features of the regulation of distance contracts by EU legislation.
3. The legal nature of the sources of European contract law as an instrument for regulating relations.
4. The concept of «contractual obligations» in EU law.
5. Protection of consumer rights in contracts with unfair terms.
6. Termination of the purchase and sale agreement in accordance with EU law.
7. Comparison of the classification of contractual obligations in the legal acts of the EU and Ukraine.

Requirements for writing an individual assignment:

1. The language of writing is Ukrainian, in a scientific style.
 2. Total volume of work 7-0 sheets of A-4 format, text is placed on one side of the page; Word editor; Times New Roman font, 14 points, 1.5 spacing; margins: top – 2 cm, bottom – 2 cm; left – 3 cm, right – 1.5 cm, book format, page numbering in the upper right corner
 3. Mandatory references in the text of the assignment to the sources used: the number of the source in the list and the page number in it (if any) where the relevant information is stated are indicated in square brackets. The brackets are placed directly after the text to which the reference refers. For example: “the author believes that ... /the content of the thought is stated/ [1, p. 2-3]”; the numbers “1” in this example are the numbers under which the specified works are placed in the list of sources used, “p. 2-3” are the page numbers
 4. Borrowing other people's ideas without citing the author is not allowed.
- The student selects regulatory material, scientific, educational and other special literature on the topic of the individual assignment independently. A scientific base written more than five years ago can be used only as a comparative element.

7. Teaching methods

During classes, three groups of teaching methods are used:

1. verbal, which involve a descriptive disclosure of educational material, an explanation of the essence of the relevant phenomenon, concept, process, instruction on the specifics of the application of individual norms, checking the level of independent processing of educational material, etc.;
2. visual, the essence of which is to demonstrate diagrams, tables, drawings (if available), and presentations;
3. practical, which manifest themselves in the formation of skills and abilities in operating with legal categories, applying legal norms and using acquired knowledge when conducting seminar classes.

8. Control methods

Control methods are methods of diagnostic activity that allow for feedback in the learning process in order to obtain data on the success of learning and the effectiveness of the learning process. Control measures determine the compliance of the level of knowledge, skills and abilities acquired by students with the requirements of regulatory documents on higher education.

Current control is carried out at each seminar classroom session in the form of oral questioning, student speeches, writing test papers and preparing an individual assignment (essay), etc.

At the end of the course, an exam is held in the form of a written examination paper, which may include detailed answers to questions and answers to tests.

The maximum number of points that a student can score when taking the final test in an academic discipline is 40. The maximum number of points that a student can score when studying an academic discipline is 100.

Questions for final control

1. Instrumental and ideal-normative theory of contract law.
2. Interdisciplinary scientific perspectives on contract law.
3. The concept of EU contract law.
4. Modern approaches to the concept of a contract. Narrow and broad definition of the concept of "contract".
5. The concept of "agreement", "contract" in the Acquis Communautaire or Acquis International.
6. Types of agreements in EU legislation: voluntary agreements, sectoral agreements, voluntary private law agreements, agreement in competition law.
7. Vertical agreements and concerted practices.
8. Quasi-contracts.
9. The function of contract law in creating a market.
10. The function of contract law in regulating the market.
11. The regulatory function of European contract law.
12. The principles of the EU acquis Communautaire as the basis for the formation of European contract law.
13. The content and purpose of the acquis as the basis for the legal order of the European Union.
14. Basic requirements for entering into contractual obligations in the acquis.
15. Harmonization of legislation as a tool for implementing the EU acquis in the domestic legal order of Ukraine.
16. Sources of European contract law.
17. Forms (documents) for the formation of sources of EU treaty law. Publications of the expert group, Commission acts or interinstitutional agreements, Commission recommendations for the countries of the European Union (EU).
18. Directive as a source of EU contract law.
19. Types of regulations. Characteristics of the Regulation as a source for the formation of EU contract law.
20. Contractual obligations as part of EU contractual law.
21. The concept of "contractual obligations" in European Union (EU) law.
22. Rome I on contractual obligations.
23. Contractual obligations under DCFR.
24. Grounds for the validity of the contract under the DCFR.
25. Certain types of contractual obligations. Sale. Lease. Services. Donation.
26. Multiple debtors in a contractual obligation.
27. Replacement of parties in an obligation.

28. Unfair conditions. Factors for assessing unfair conditions.
 29. Peculiarities of regulation of contracts for the provision of financial services.
 30. Distance financial contracts. Consumer financial contracts.
 31. Insurance services. Protection of the rights of the parties in an insurance services contract.
 32. General provisions on the provision of transportation services. Types of transportation.
 33. EU legislation on transport service contracts.
 34. General provisions on the provision of agency services.
 35. Commercial agency, franchise and distribution.
 36. Basic requirements for the procedure for fulfilling a contractual obligation under EU regulations.
 37. Ways to ensure compliance with obligations under EU regulations.
 38. The concept of contracts in the private law of EU countries.
 39. Classification of contracts in the private law of EU countries.
 40. Validity of a contract in the EU. Invalidity of a contract.
 41. Legal consequences of invalidity of a contract under European contract law.
 42. Form of contract in EU law.
 43. General requirements for the content of a contract in European contract law.
- Interpretation of a contract.
44. Legal regulation of the sales contract in the EU.
 45. Obligations of the parties under a purchase and sale agreement.
 46. Amendment and termination of the purchase and sale contract in accordance with EU law.
 47. Consequences of changing and terminating the purchase and sale agreement.
 48. Grounds for refusal of the purchase and sale agreement. Complications of the agreement.
 49. Methods of protecting the rights of a party to a sales contract in accordance with the United Nations Convention on Contracts for the International Sale of Goods of April 11, 1980.
 50. Contracts in the mediation procedure at the negotiation stage of concluding contracts.
 51. Contracts in the mediation procedure.
 52. Agreement based on the results of mediation.
 53. Problems of adapting Ukrainian legislation to EU legislation in terms of contractual regulation of the mediation procedure.
 54. Peculiarities of concluding contracts in the case of mandatory mediation
 55. Scientific and practical problems of implementing the norms of European contract law into the legislation of Ukraine regarding the conclusion, execution and enforcement of contractual obligations.
 56. Consequences and liability for breach of contractual obligations under EU law.
 57. Peculiarities of liability for breach of contract in European contract law.
 58. Methods and forms of protecting the rights of the parties to the contract in accordance with the UNIDROIT Principles.
 59. Methods of protecting the rights of the parties to a contract in accordance with the Principles of European Contract Law.
 60. Grounds for exemption from liability for breach of contractual obligations in the EU.
 61. EU competence and consumer contracts.
 62. Harmonization of European contract law.
 63. Classification of principles of European contract law.
 64. The principle of freedom of contract in EU contract law.
 65. The principle of security in EU treaty law.
 66. The principle of fairness of the contract.
 67. Arbitration proceedings using European contract law.
 68. Applicable law in arbitration proceedings with the application of EU contract law.

69. Evidence and substantiation in arbitration proceedings.
70. Peculiarities of recognition and enforcement of decisions using European contract law.

9. Points accrual scheme

The total number of points is 100.

The number of points for the exam is 40.

Number of points during the semester – 60:

Number of points for answers in seminar classes $\sum 40 = 40$:

Calculation formula

$$\frac{\sum 1}{\sum 2} \times 40 = \dots \times 8 \text{ (eight)}$$

Note:

$\sum 40$ – the sum of the maximum number of points

$\sum 1$ – the sum of points received by the student for answers in seminar classes.

$\sum 2$ – number of seminar classes during the semester.

8 – coefficient

Current control, independent work, individual tasks			Toget her	Exam	Sum
T1-T8	Test work provided for in the curriculum	Individual task			
$\sum 40$	10	10	60	40	100

To be admitted to the exam, a higher education applicant must score at least 10 points in the academic discipline during current control, independent work, and individual assignment.

Criteria for evaluating academic achievements

When studying the academic discipline, the use of artificial intelligence (AI) technologies is carried out in accordance with the Policy on the Use of Artificial Intelligence Technologies of V. N. Karazin Kharkiv National University.

IN within disciplines are applied such models using AI:

1. Model "AI is forbidden."

The use of artificial intelligence technologies is not allowed during the implementation of control measures aimed at verifying the individual knowledge and development of the competencies of the education seeker, in particular: oral questioning, modular control works, exam (offset), if other not determined teacher, others species evaluation, for whom the teacher has set restrictions on the use of AI.

2. Model "AI as assistant".

When preparing for practical classes, completing individual assignments, essays, analytical reviews, and other written work, the use of AI is permitted for: search and systematization information, selection and primary analysis scientific sources, explaining complex concepts, improving text structure, checking grammar, style and layout, generating ideas, a work plan or examples.

The final text of the work, conclusions, analysis, interpretation of results, and decisions made must be prepared independently by the student.

3. Model "AI as tool".

For certain laboratory, practical, project or research works, the use of artificial intelligence technologies may be a mandatory component of the task. In such cases, students can use generative

AI models to: analyze and prepare data, generate, analyze and optimize program code, compare the results of different AI models, create visualizations, schemes or images, analysis big arrays data. carrying out experiments using modern artificial intelligence tools.

All results, received by with help AI, are subject to critical analysis, verification and revision by the education seeker.

Declaring the use of AI.

In the case of using artificial intelligence technologies, the student is required to indicate: the name of the service or AI model; date of use; nature of assistance (idea generation, information search, data analysis, code generation, text editing, etc.).

At the teacher's request, the student must provide the prompts used or explain how to use AI tools.

Undeclared use of artificial intelligence technologies or submission of generated AI material as own result educational activities under consideration as a violation of the principles of academic integrity in accordance with the internal regulatory documents of the University.

Response evaluation criteria

Current control is carried out, in particular, in the form of surveys and verification of the results of performances at seminars and practical classes on a five-point grading scale.

5 points are awarded under the following conditions:

- the student works actively throughout the practical session;
- provides a complete, correct, consistent, coherent, and well-founded presentation of the issue, accompanied by correct examples from doctrinal sources and references to current legislation;
- everything that is taught must demonstrate a deep understanding and orientation in the phenomena and processes being studied;
- correct comprehensive answers to additional questions from the teacher.

4 points are awarded under the following conditions:

- the student works actively during the practical session;
- gives a correct, complete presentation of the content of the textbook and the material presented by the teacher, but answers additional control questions that the teacher asks to determine the depth of understanding and the ability to navigate phenomena and processes only with some help from the teacher or colleagues;
- insufficiently comprehensive answers to the teacher's additional questions.

3 points are awarded under the following conditions:

- the student behaves passively in class, responding only to the teacher's call;
- generally demonstrates knowledge of the main educational material being considered, but makes mistakes when answering and realizes them only after the teacher's instructions;
- does not give answers to questions immediately, but only after some straining of memory, and the answers are unclear;
- unable to derive correlations with other problems of the discipline being studied without the help of a teacher;

2 points are awarded under the following conditions:

- makes significant errors or completely skips material and partially corrects these errors only after instruction from the teacher;
- the student shows ignorance of a significant part of the educational material, presents it illogically and uncertainly, there are hitches and pauses in the answer, cannot explain the problem, although he understands it;
- does not present the material coherently and consistently enough.

1 point is awarded under the following conditions:

- the student makes gross mistakes when presenting the material and does not correct these mistakes even when the teacher points them out;
- reveals a lack of understanding of the educational material and, as a consequence, a complete

lack of skills both in analyzing phenomena and in further performing practical tasks.

Criteria for evaluating an individual assignment (essay)

Number of points received	Criteria for obtaining the appropriate number of points
0 points	the work is not accepted; the student has not met the specified requirements, the topic of the work is not disclosed at all, sources were not used when writing; the student is not familiar with the topic of the work and cannot answer any of the questions posed
1-4 points	the work does not fully meet the requirements; less than 5 sources were used in the work, international scientific sources were not used; the work does not contain references to the sources used, the topic of the work is disclosed one-sidedly, there is no logic in the presentation of the material; the structure of the work was not followed; the work contains significant grammatical and/or stylistic errors; the student did not answer the vast majority of the questions posed
5-7 points	the work was completed at the proper theoretical and practical level; the requirements for writing the work were met; the work was properly structured, but scientific sources were insufficiently analyzed and there was no creative approach to completing the tasks set; minor violations of the logic and/or systematic presentation of the material were allowed; minor inaccuracies were allowed in the design of the work; the student answered all the questions posed
8-10 points	the work was performed at a high scientific and practical level; the work demonstrated a high level of knowledge and creative understanding of the research results obtained; no errors were made in the design of the work; the student answered all the questions posed

Criteria for evaluating test and examination work

The test and examination work are carried out in written form and consist of 10 and 40 test tasks, respectively. Each test task has four answer options, only one of which is correct; one point is awarded for each correct answer.

Rating scale

The sum of points for all types of training activities during the semester	National scale assessment
90–100	perfectly
70-89	good
50-69	satisfactorily
1-49	not satisfactory
